

## **The Coalfields Regeneration Trust -**

The Trust works in two main areas. As a grantmaker and it is actively involved in supporting projects on the ground in coalfield communities.

### **Grants Programme**

One of the major strengths of the Coalfields Regeneration Trust is the flexibility of our funding programmes. They're there to help people, not make them jump through hoops. At the one end of the spectrum we give grants from our 'community chest' to small organisations to help them develop, and at the other end we give large grants of up to £300,000 to bigger voluntary, community and statutory organisations.

Our grants programme is about helping groups who respond to local need. But we're also proactive in developing ideas and projects that address key issues such as worklessness, isolation, skills, sector development and sustainability.

In short, the Trust is always interested in working with partners to deliver projects and programmes that will contribute to the regeneration of coalfields communities.
