

## **The Sir Andrew Martin Trust for Young People**

This fund is for the benefit of young people living in Leicestershire in particular those undertaken by youth organisations.

For organisations grants are up to £500 but may exceed this where exceptional circumstances can be demonstrated. Need to demonstrate a grant will make a significant contribution to specific work that will benefit young people.

For individuals grants are usually between £100-£250. Need to show how a modest grant will make a real difference in developing skills and talent or enabling them to take up an opportunity.
